

Section 8 – Existing Culvert Information

Notice: You must provide any and all culvert/bridge information for culverts/bridges that are above, below, or associated with the project area. Be sure to include all culverts affecting the property even if not directly up or down stream. You must describe the culvert/bridge as instructed below. Measure all culverts/bridges to insure accuracy. Incorrect information may result in an invalid permit.

Number the culverts on the required map and place the description information here. Use additional sheets if necessary:

a. Type: **Round** **Arch** **Box** **Other** _____

b. Material: **Concrete** **Metal** **Plastic** **Other** _____

c. Dimensions, inches: **Diameter (round culverts only)** _____ **Height x Width** _____

d. Owner: **Township** **County** **State** **Other** _____

e. Application: **Centerline** **Approach** **Other** _____

f. Direction of flow: _____ Approx. drainage area, acres _____

g. Does this culvert have a flap gate/trap? yes no

a. Type: **Round** **Arch** **Box** **Other** _____

b. Material: **Concrete** **Metal** **Plastic** **Other** _____
